Notice to Contributors

Manuscripts submitted for publication *must be* double- or triple-spaced originals. There should be wide margins on both sides of the sheets and triple spacing around formulas to allow for the marking of directions for the printer.

Original drawings (jet black India ink on white paper or tracing cloth) should accompany the manuscript. *(Blueprints are not acceptable.)* Photographs *must be* on glossy white paper.

Only the simplest formulas should be typewritten; all others should be carefully written in pen and ink. The difference between capital and lower-case letters and Greek symbols should be clearly distinguished.

See page 754 of this issue for further details.
